

"The Roar Circus Show"

an absurd comedy circus show

ROAR CIRCUS

Roar Circus is a dynamic performance company that emerged from a spontaneous improvisation session in October 2019.

Since then, the duo has created several hilarious stage acts, presenting them at various juggling conventions and circus festivals all over Europe. Their performances have drawn attention for their creativity, lively energy, and unique mix of physical comedy and modern circus art.

In 2021, Roar Circus started the creation of "The Roar Circus Show" to expand their acts and develop the play they have between them. This show was adapted to the street performance format in 2024 to reach a wider audience.

Roar Circus is also renowned for their expertise in hosting international gala shows.

THE ROAR CIRCUS SHOW

"The Roar Circus Show" brings you in all kinds of imaginary adventures. One after the other and right into the next.

You will see Llamas doing juggling tricks, the funeral of a baby bird, and the crash of a fake helicopter with real fire. Through their performances, the limits of logic and necessity get overcome in a pleasing and delightful way.

This show takes the audience away from their everyday life into a rollercoaster of heartfelt emotions.
